PROFESSIONAL SUMMARY

AI Engineer and Data Scientist with 2+ years of hands-on experience designing and deploying machine learning, deep learning, and NLP systems. Proven track record building end-to-end AI products — from data pipelines and model training to production deployment with Streamlit, FastAPI, and LLM integrations. Passionate about applying AI to healthcare, education, and real-world automation.

TECHNICAL SKILLS

Languages: Python, SQL (PostgreSQL), HTML/CSS, PHP

ML / DL: TensorFlow, PyTorch, Keras, Scikit-learn, FastAI, XGBoost, CNNs, Transformers

NLP / LLMs: LangChain, OpenAI API, Hugging Face Transformers, spaCy, NLTK, Gensim, Word2Vec

Data & Viz: NumPy, Pandas, Matplotlib, Seaborn, OpenCV

Deployment: Streamlit, FastAPI, Render, Vercel, Docker, Git/GitHub

Tools: Jupyter, Google Colab, VS Code, PyCharm, Kaggle, Anaconda

EXPERIENCE

AI Engineer

Saylani Welfare Trust — Peshawar, Pakistan • Jan 2023 – Aug 2024

- Designed and shipped ML algorithms for NLP tasks, improving text analysis and automation workflows.
- Built deep-learning models for image recognition and object detection used in internal tooling.
- Integrated AI components into existing products alongside cross-functional engineering teams.

Data Science Intern

Code Alpha — Remote • Jan 2024 – Aug 2024

- Developed and tuned ML/DL models on large datasets for real-world applications.
- Applied deep learning and NLP techniques to support multiple AI solutions.
- Documented findings and presented progress to stakeholders on a regular cadence.

Python for Data Science & AI — Trainee

Saylani Trust (SMIT) — Peshawar • Jan 2023 – Jan 2025

- Hands-on training in data manipulation, visualization, ML, and AI techniques.
- Built practical projects applying Python to real-world data problems.

SELECTED PROJECTS

Sajid's AI Diner (SmartDineAI). Full-stack AI restaurant assistant: Next.js frontend on Vercel, FastAPI backend on Render, plus a Streamlit demo. LLM-driven menu recommendations and conversational ordering. — Next.js, FastAPI, LLM, Python

Pizza LLM Bot. Conversational ordering chatbot powered by LLMs that gives personalized pizza recommendations and handles complex multi-turn queries. — Python, LangChain, LLM, Streamlit

AI HR Hiring Assistant. Streamlit app that automates resume parsing, candidate screening, and hiring recommendations using NLP. — Python, NLP, Streamlit

LinkedIn AI Assistant. FastAPI tool that generates LinkedIn replies, summarizes threads, and drafts multilingual messages with tone control via LLMs. — Python, FastAPI, LLM, NLP

Pneumonia Detection from X-Rays. CNN (VGG16/ResNet) classifier trained on chest X-rays for pneumonia detection, deployed on Streamlit for real-time inference. — TensorFlow, Keras, OpenCV

Real-Time Object Detection (YOLOv8). YOLOv8-based detector deployed on Streamlit Cloud for live image/camera inference with bounding boxes and labels. — YOLOv8, Python, Streamlit

Smart Hostel Manager. Streamlit-based hostel management system with automated booking, room allocation, billing, and occupancy analytics. — Python, Streamlit, Data Analytics

EDUCATION

B.S. Information Technology — Agriculture University Peshawar (Nov 2022 – Present)

Diploma in Information Technology — National College of Management Science (Jan 2023 – Jan 2024)

Python for Data Science & AI — Saylani Trust (SMIT) (Jan 2024 – Present)

CERTIFICATIONS

- Machine Learning Specialization — Stanford University & DeepLearning.AI (2025)
- Deep Learning Specialization — DeepLearning.AI (2025)
- Data Analytics and Business Intelligence — DigiSkills.pk (2024)
- AI Python for Beginners — DeepLearning.AI (2023)
